

Internship Application Checklist and Application Open Dates

Ready to land an internship that will help boost your professional skills, give you experience, expand your network, and launch your career? Here's how.

Internship Application Checklist

- Find a list of internships you want to apply for.
- Figure out when these internship applications open (see 40+ open dates below!) and mark your calendar.
- Create a general version of your resume with all of your relevant experience, activities, skills, strengths, certifications, Forage job simulations, etc.
- If you have work you can showcase easily in a web format, create an online portfolio. Add a link to your resume.
- Update your LinkedIn with your resume experience, skills, certifications, and online portfolio.

Then, for each application, repeat the following steps:

- Create a tailored resume for the job application. Use the job description and the company website as your guide to figure out what relevant skills and experience to pull from your general resume.
- Do your research on the company. Get familiar with its mission, values, and what it does.
- Write a cover letter for the company (even if it's not required).
- Submit your application as soon as the open date arrives (again, see 40+ open dates below!).
